FOR IMMEDIATE RELEASE

Denali's Head of Portfolio Management Co-Authors Mathematical Games Book

La Jolla, CA, April 29, 2008---Mike Munson, head of Portfolio Management at Denali Advisors, co-authors **Optimal Play- Mathematical Studies of Games and Gambling** published by The Institute for the Study of Gambling and Commercial Gambling. Mike originally wrote his part of the book while majoring in Mathematics at Harvey Mudd College.

In his writings, Munson specifically discusses the topic of estimating winning probabilities in modern backgammon races. He touches on creating mathematical and quantitative models that simulate the game and provide approximations to mastering it in the real world.

Currently, Mike Munson serves as Vice President of Portfolio Management for Denali Advisors. He is co-founder of Denali, and manages portfolio implementation, special situations, and rebalancing to insure insights from Denali's quantitative process are captured and clients guidelines followed. Mike has a B.S. in Mathematics from Harvey Mudd College, an MBA from UCLA, and PhD Coursework in Optimization at Stanford University.

Denali Advisors, LLC is a quantitative institutional money manager focused on domestic equities. Denali is the largest Native American-owned money manager in the U.S. with \$1.0 billion in assets under management as of the end of the first quarter 2008.
